

## **Intro**

Thundera Multimedia is a digital marketing agency specializing in video production, website design, mobile app development, graphic design and audio / voice talent.

We are looking for an outstanding, committed individual to join our team.

## **Position:**

Web Developer / Designer

## **Job Description:**

The web developer / designer is responsible for building new websites and offering support and maintenance for our existing clients. This position will work closely with our Lead Developer and Design Lead to build mobile-friendly (responsive), functional, intuitive websites for a variety of customers and industries. Applicants should have some programming experience and/or a desire to learn. Candidates must have the ability to work in a team environment and independently while managing multiple projects in a fast-paced environment.

## **Job Duties:**

- Use modern web development technologies including HTML 5, CSS 3, Bootstrap and JavaScript/JQuery.
- Ability to write code from scratch and work with platforms such as WordPress
- Make updates to current clients' websites.
- Respond to clients' questions/inquiries either via emails or phone calls.
- Integrate social media content, email marketing or other third-party resources

## **Qualifications:**

- HTML 5
- CSS 3
- Responsive Design
- Bootstrap
- JavaScript/JQuery
- SEO
- Adobe Dreamweaver
- Adobe Photoshop
- WordPress
- Strong problem-solving skills
- Strong verbal and written communication skills.

- Must be self-motivated and have the ability to work with a team as well as individually.

**Additional Skills Desired but Not Required:**

- Programming Languages (Adobe ColdFusion, PHP)
- Microsoft SQL Server
- Framework One
- Windows server administration
- Adobe software (Illustrator, InDesign, After Effects, Premiere Pro)

**Compensation:** Wages based on experience.
